

Nestled in the woods in Central Pennsylvania between State College and Huntingdon, Stone Valley Quilting can meet your machine quilting needs by applying the quilting design of your choice to your pieced top. Proprietor Deb Kerr will meet with you to design a quilting plan. Choose from the many all-over, block, border and fill patterns we can provide.

If your quilt needs pressing, squaring, repairing, etc. we will be happy to give an estimate of the cost. We charge \$20/hour for extra services.

Sample Pricing

... for a queen-sized quilt that measures 95" by 108"

[Use this example to help you estimate the cost for your quilt. Does not include sales tax.]

Area (for quilting) = $95 \times 108 = 10,260$ sq in

Perimeter (for bindings) = $2 \times 95 + 2 \times 108 = 406$ "

Average density edge to edge quilting

10,260*\$0.014	\$143.64
Thread (one color cotton)	\$10.00
Quilters Dream Blend Batting (king needed)	\$30.90
Machine attached binding:	$406 \times \$0.10 = \40.60
Total Cost:	\$225.14

Preparing Your Quilt

- Press all seams flat (this doesn't mean open - just pressed well).
- Remove loose threads and clip thread tails.
- Backing and batting need to be at least 8" longer and wider than the quilt top (4" on each edge).
- Don't baste the layers together.
- If the backing needs to be pieced, sew the pieces together with a 1/2" seam and press open. Remove all selvages. Square the backing.
- Make sure the quilt is square. Two things will help you to have square tops. One is to square blocks as you go. The other is to apply borders by taking several measurements through the middle, average these measurements and cut borders to this length. Pin borders to the quilt by matching centers, ends and quarters. Ease quilt into borders.
- Use a safety pin to mark the top of the quilt and the top of the backing if you have a preference.
